BY ME

Made for **Primary.**
Made for **Andalucía.**

Your classroom, your Andalucía

Bilingual teaching in Andalucía has its own rhythm, its own challenges and its own sense of place. That's why we've built a proposal that starts right where you are: **shaped around Andalusian schools, their curriculum and the students who fill them every morning.**

Our materials are designed to make your work lighter, not heavier: clear structures, ready-to-use resources and activities that bring English into every corner of the school day. **And because the books are covered by the *cheque libro,*** choosing ByME is as easy for families as it is for your school.

This year, two new projects join the ByME family:

- **ROOTS** turns Science into an adventure of questions, experiments and discoveries about the world around us.
- **MAKING WAVES** invites every student to observe, experiment and create, whatever their artistic level.

Turn the page and discover how we can grow together, one lesson at a time.

With you, every step of the way,
The ByME Team

ROOTS

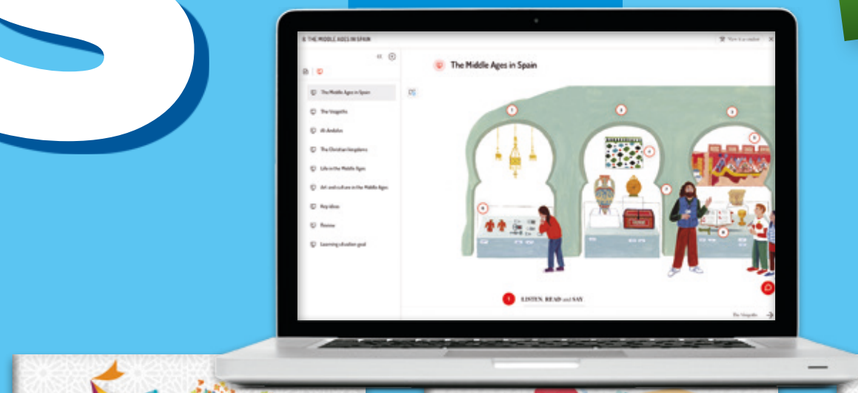

roots*
Science

NEW!

ANDALUCÍA

ROOTS brings clear, visual and accessible content designed to facilitate learning for every student. Visual summaries, engaging activities and flexible resources — from learning stations to multilevel worksheets — help teachers create inclusive, dynamic lessons that truly come to life.

At **ByME,** we believe every science journey begins with curiosity. **ROOTS** grows from that belief, empowering students to explore, question and understand the world through active discovery and competency-focused learning.

100%
covered by
CHEQUE LIBRO

Saberes Básicos
All the key content in Spanish, packed with the Student's Book.

COURSE **COMPONENTS**

For students:

- Student's Book
- ***Saberes Básicos*** in Spanish
- Digital Resources

For teachers:

- Teacher's Book
- Student's Book
- ***Saberes Básicos*** in Spanish
- Digital Resources
- Flashcards (cycle 1)

You'll love teaching with it!

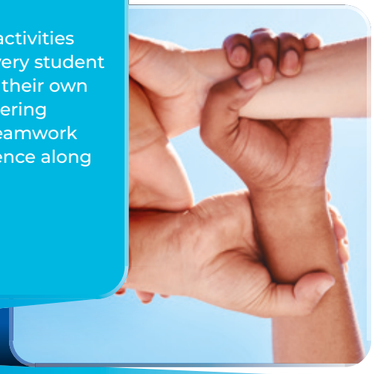

Learn it Feel it Get it

ROOTS makes science learning clear, inclusive and exciting — with visual, accessible content and resources so every student can understand, participate and shine.

Inclusion that works

Multilevel worksheets, flexible activities and emotional learning help every student progress at their own pace — fostering empathy, teamwork and confidence along the way.

Ready to teach Ready to inspire

On the new ByME platform, everything's within reach: interactive books, videos, audios, tests and printables that will save time and will boost your students' engagement.

Term pages

Stations and the World Around You turn assessment into action. Students move, do and demonstrate what they know in interactive, dynamic ways.

Learning that clicks with Andalusian culture

Clear, engaging content inspires students to develop curiosity, critical thinking and a deeper appreciation of how science connects to everyday life.

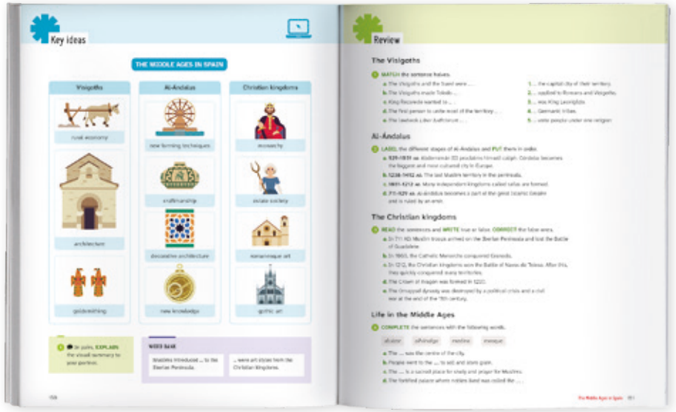

Smart structure Active minds

Every Learning situation is designed with a clear framework for developing learning objectives that move students from basic knowledge to higher-order thinking, helping you make learning meaningful.

Phases of a Learning situation

Saberes Básicos: todos tus contenidos en castellano

1 MOTIVATE

2 ACTIVATE

3 EXPLORE

4 STRUCTURE

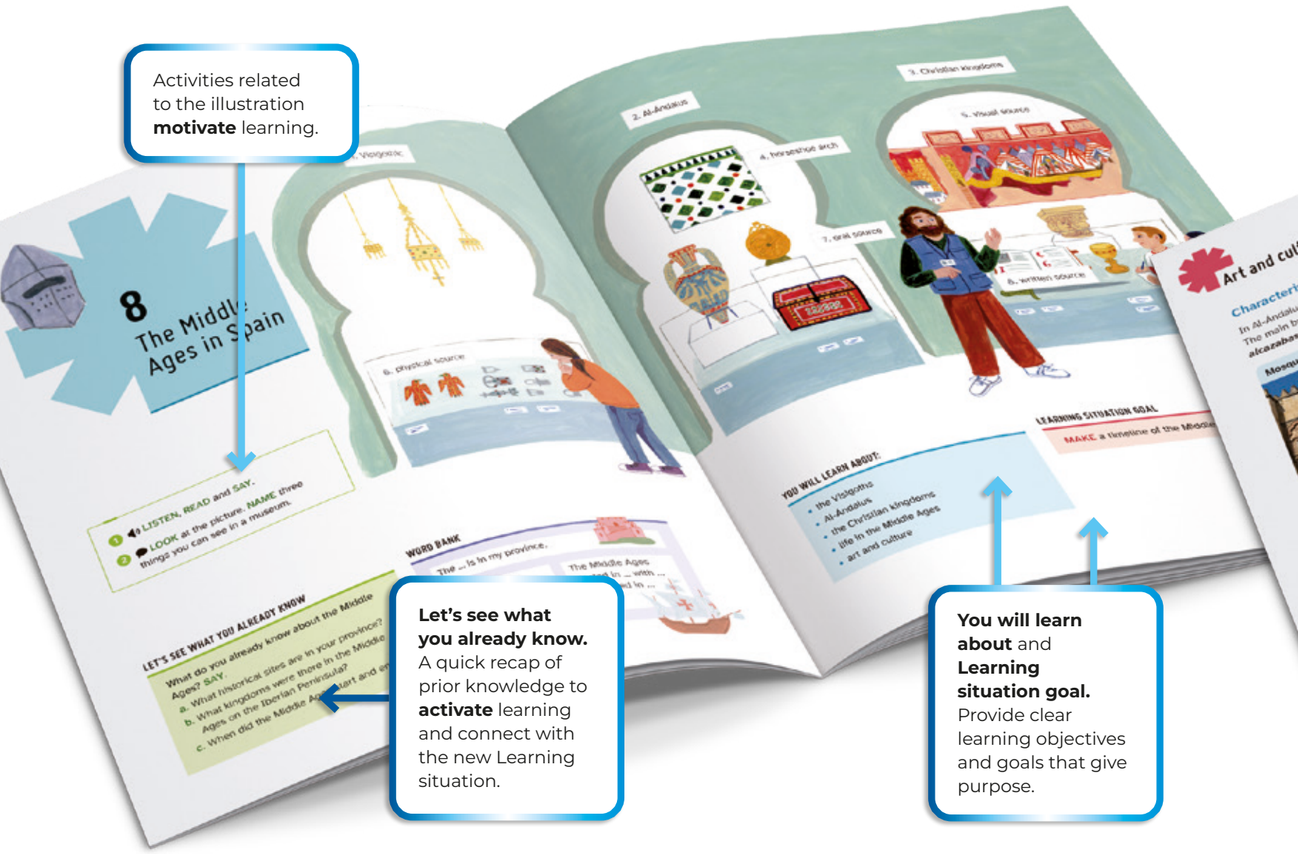

5 APPLY AND CONCLUDE

MOTIVATE and **ACTIVATE**

Visual **Learning situation openers** spark students' interest and introduce content and vocabulary in context.

A clear and attractive design helps communicate science concepts clearly.

Activities related to the illustration **motivate** learning.

Let's see what you already know. A quick recap of prior knowledge to **activate** learning and connect with the new Learning situation.

You will learn about and **Learning situation goal.** Provide clear learning objectives and goals that give purpose.

EXPLORE with theory pages

Key ideas are presented visually and clearly, making learning intuitive and engaging through a thoughtful, clean and attractive design.

Activities on the theory pages help students deepen their **exploration** through practice.

Specific activities guide students towards achieving their Learning situation goal.

STRUCTURE
with Key ideas and Review

These pages help students **consolidate the Learning situation's content.** Turn review time into a moment of discovery and fun!

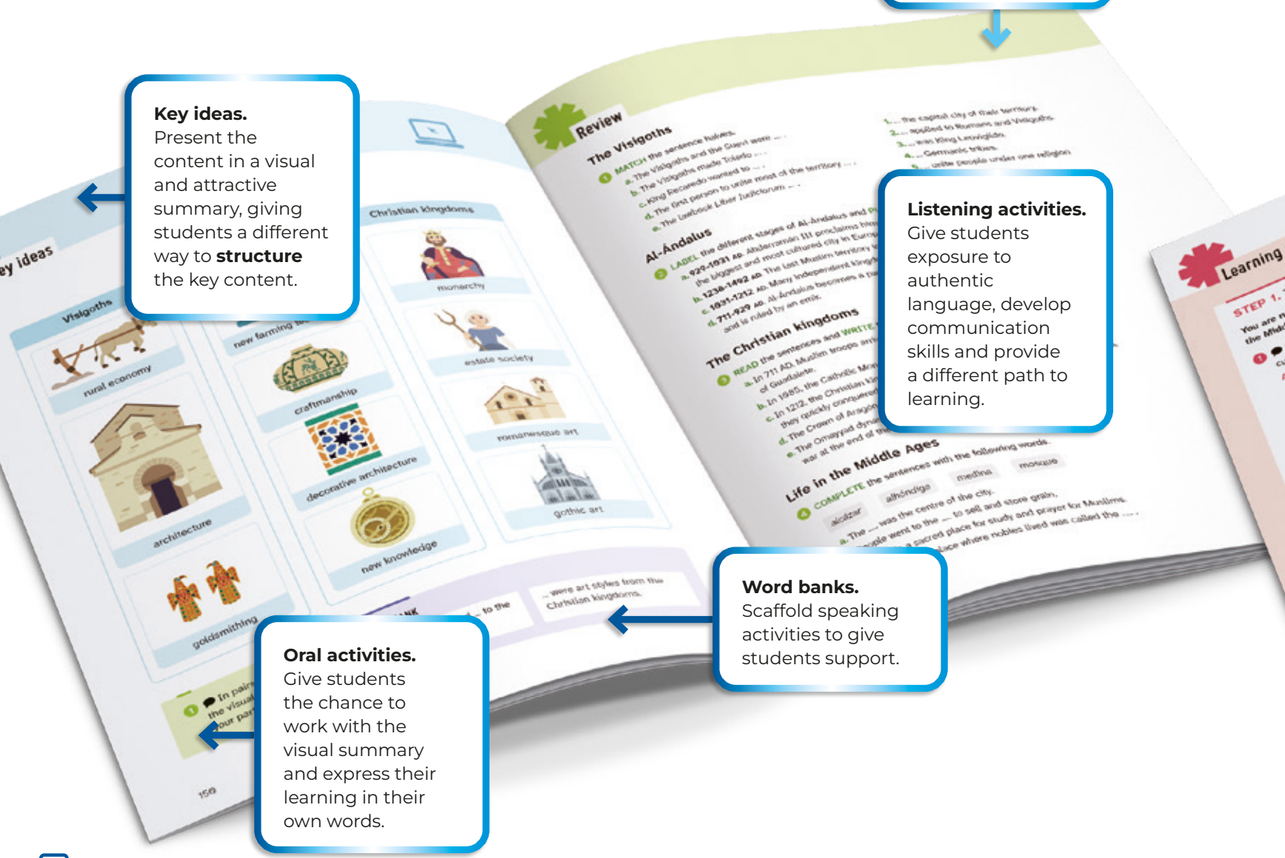

Review.
Activities that move from simple to complex, based on Bloom's Taxonomy, guide students to employ, analyse and evaluate for deeper understanding.

Key ideas.
Present the content in a visual and attractive summary, giving students a different way to **structure** the key content.

Listening activities.
Give students exposure to authentic language, develop communication skills and provide a different path to learning.

Word banks.
Scaffold speaking activities to give students support.

Oral activities.
Give students the chance to work with the visual summary and express their learning in their own words.

APPLY and CONCLUDE
with the Learning situation goal

These pages focus on guiding students through the **creation of a competency-based activity** that puts into practice what they have learned. They encourage creativity, collaboration and reflection, helping them develop solutions or construct original ideas.

Think back.
Students **activate** the knowledge needed to meet their goals.

Plan.
Students are given ownership of their learning by allowing them to make guided decisions and choose the content or the format they wish to develop.

Make.
Students produce original work.

Share.
Aided by language support, students present their work and express their learning.

Be mindful.
Students work on self-awareness and social awareness.

Term pages

Stations

Fun, hands-on stations **motivate the classroom** and allow students to explore key content in an active approach.

Ready-made materials make it simple to prepare the stations where students rotate to work on different tasks related to the term.

Students work on **autonomy and cooperation** while consolidating their learning.

Students work on **fine motor and creative skills** while practising key concepts.

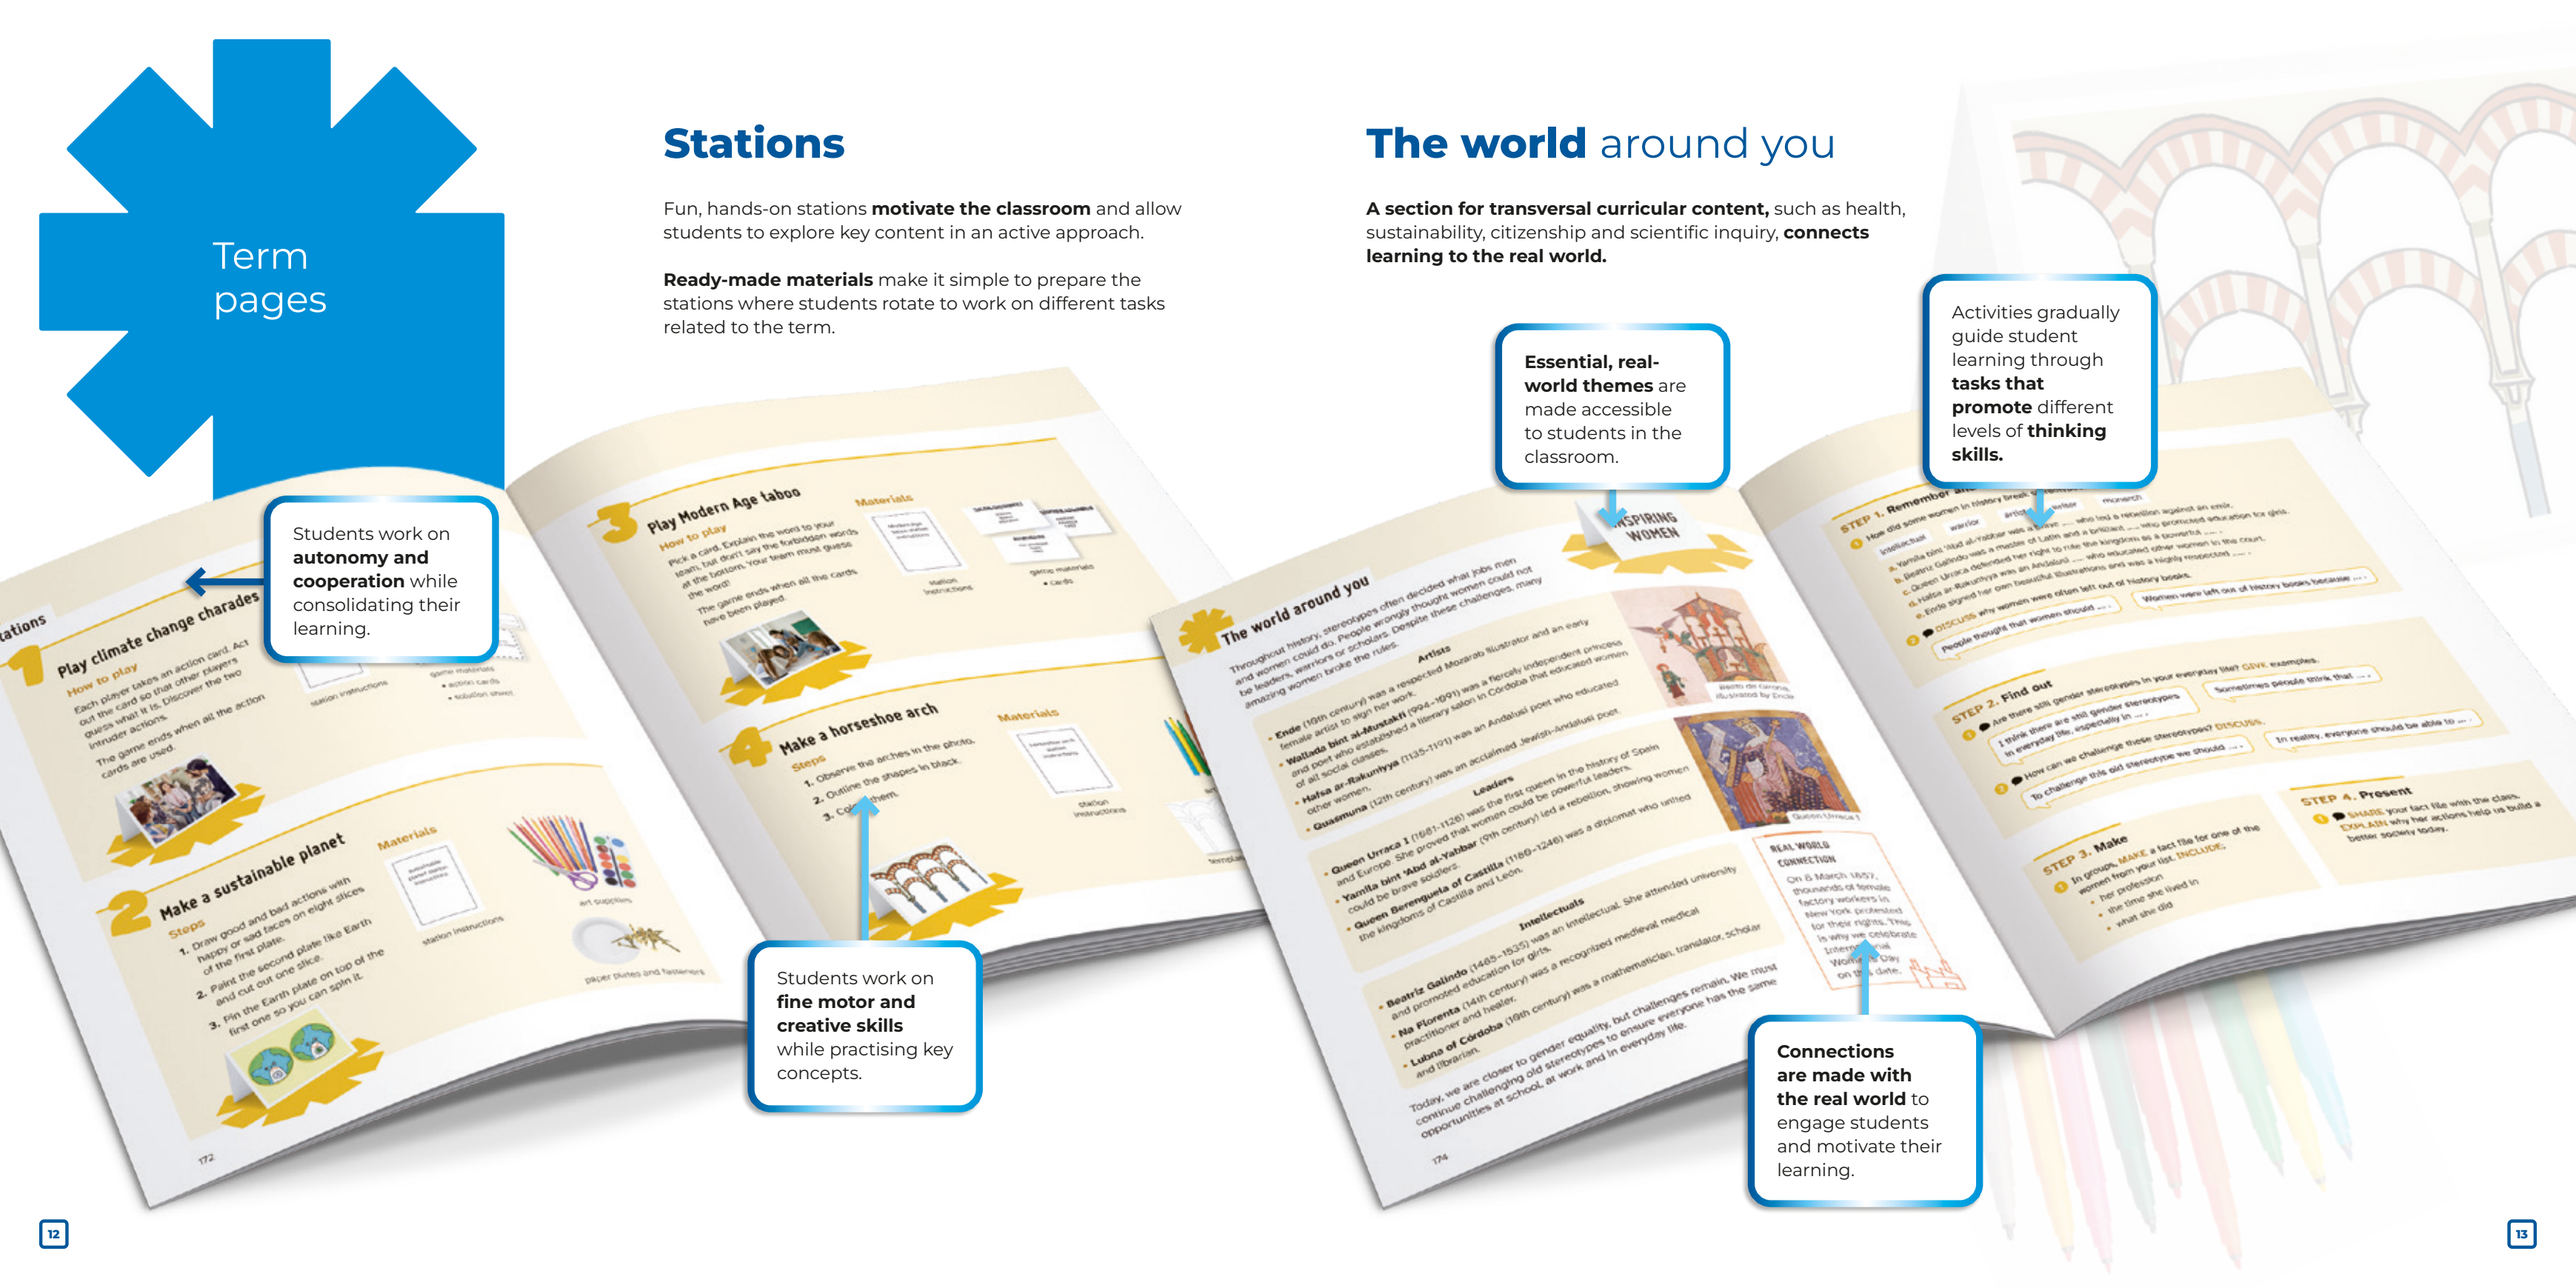

The world around you

A section for transversal curricular content, such as health, sustainability, citizenship and scientific inquiry, **connects learning to the real world.**

Essential, real-world themes are made accessible to students in the classroom.

Activities gradually guide student learning through **tasks that promote** different levels of **thinking skills.**

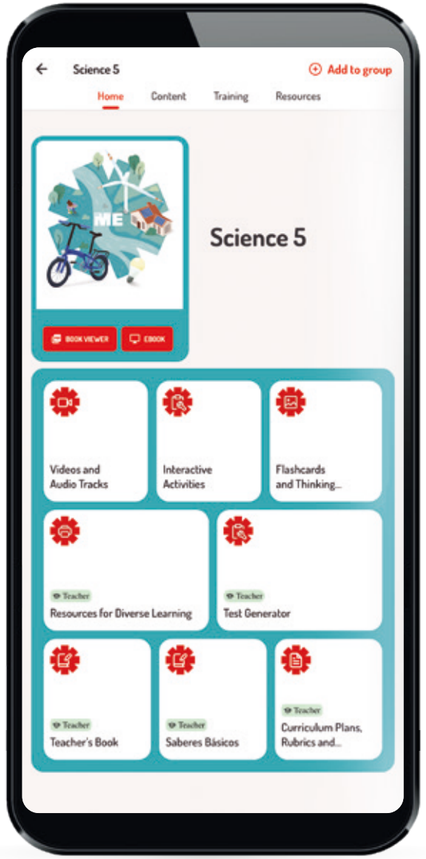

Connections are made with the real world to engage students and motivate their learning.

Digital

All your classroom essentials, just where you need them.

Digital resources, available on the new ByME platform, offer an easy-to-use environment that works smoothly on any device.

Teacher's kit

A wide range of digital resources designed to **support classroom teaching** and enrich every lesson:

Digital Student's Book with audio recordings (plus an interactive digital book with activities for cycles 2 and 3)

- Audio recordings
- Videos
- Extra interactive activities
- Digital flashcards
- Thinking routine posters
- Resources for Diverse Learning, including Stations and multilevel worksheets
- Test generator, allowing teachers to create, share, print and customise activities and assessments for cycles 2 and 3
- Teacher's Book
- ***Saberes Básicos*** in Spanish
- Curriculum plans
- Assessment worksheets
- Assessment rubrics

Student's kit

The **Student's kit** offers engaging and accessible digital materials to support learning both in class and at home.

Digital Student's Book with audio recordings (plus an interactive digital book with activities for cycles 2 and 3)

- Audio recordings
- Videos
- Extra interactive activities
- Digital flashcards
- Thinking routine posters

- **The perfect complement for class.**
- **Customisable and flexible projects.**
- **For levels 5 and 6.**
- **With ROOTS levels 5 and 6, direct access to this project on the GOT it! platform:** *Is there life out there?*

Table of contents

SCIENCE 1

Learning situation	Content
1 SCHOOL AND FAMILY	School • Family • Daily routine • Home and chores • Living together • My emotions
2 WEATHER	Weather changes • Weather and climate • Weather is important • Tools to measure the weather
	Weather and climate in Andalucía
3 LIVING THINGS	Living and non-living things • Stages of life • Vital functions
STATIONS	Play home and school memory • Make a feelings wheel • Play a living and non-living things domino • Make a rainbow windsock
THE WORLD AROUND YOU	Grow a plant
4 PLANTS	Parts of a plant • Types of plants • Plants and their environment
5 ANIMALS	Wild and domesticated animals • Animal habitats • Animal reproduction • Animal nutrition
6 MY BODY	Body parts • The senses • Caring for my body • Feelings
STATIONS	Put a body together • Make a growing plant • Play animal bingo • Make a paper bird
THE WORLD AROUND YOU	Experiment with your senses
7 FOOD AND HEALTHY HABITS	Types of food • Food is important • A healthy plate • Healthy habits
8 THE UNIVERSE	The Solar System • Earth's rotation • Earth's orbit • Representing Earth, Spain and Andalucía
9 MATERIALS AND SUSTAINABILITY	Materials and where they come from • Materials and their properties • Materials and sustainability
STATIONS	Play materials memory game • Make yourself an astronaut • Play the food game • Make the Solar System
THE WORLD AROUND YOU	Every drop counts!
THE WORLD AROUND YOU	Road safety

SCIENCE 2

Learning situation	Content
1 MY COMMUNITY	Towns and cities • Services that help us • Safety and living together • Maps
2 LANDSCAPES	Nature and its elements • Natural landscapes • Landscapes and people
	Landscapes in Andalucía
3 PLANTS	Plant life cycle • Plant reproduction • Uses of plants
STATIONS	Hands-on review of term content
THE WORLD AROUND YOU	Living together
4 ANIMALS	Vertebrates and invertebrates • Mammals • Oviparous vertebrates • Animal homes
5 THE BODY AND NUTRITION	Vital functions • Nutrition • Nutrition and health
6 THE BODY AND INTERACTION	Interaction • How the body moves • Looking after your health • Reproduction
STATIONS	Hands-on review of term content
THE WORLD AROUND YOU	Healthy habits
7 EVERYTHING IS MATTER	The shapes of matter • Changes and forces • Types of matter
8 LIGHT AND SOUND	Light • Sound • Light and sound around us
9 TIME AND HISTORY	Measuring time • Family history • The history of a place and local heritage • Periods of history
STATIONS	Hands-on review of term content
THE WORLD AROUND YOU	Solar energy experiment
THE WORLD AROUND YOU	Think like a computer

SCIENCE 3

Learning situation	Content
1 MY COMMUNITY	The place where I live • Town hall and public services • Local heritage • Road safety
2 LANDSCAPES	Natural and human landscapes • Relief • Weather, climate and landscapes • Climate and landscapes in Spain • Environmental problems
	Landscapes in Andalucía
3 LIVING THINGS AND PLANTS	Living and non-living things • The five kingdoms • Parts of a plant and their classification • Vital functions of plants
STATIONS	Play the municipal workers game • Make a municipal building • Play the problem and solution game • Make a plant cycle
THE WORLD AROUND YOU	Healthy habits
4 ANIMALS	Characteristics of animals • Classification of animals • Vertebrates • Invertebrates
5 ECOSYSTEMS	Ecosystems and their parts • Interactions between living things • Ecosystems on Earth
	Ecosystems of Andalucía
6 MATTER	Properties and states of matter • Changes in matter • Classification of matter • Materials
STATIONS	Play vertebrate bingo • Make a food chain • Play the invertebrate memory game • Make a matter triorama
THE WORLD AROUND YOU	Think like a computer
7 THE EARTH	The planets and the Solar System • Earth's movements • Spheres of the Earth: atmosphere • Spheres of the Earth: hydrosphere and geosphere • Caring for Earth
8 MAPS	Representation: maps and globes • Orientation and location • Maps • Relief of Spain
9 THE STUDY OF HISTORY	The passing of time • The study of the past • Periods of history
STATIONS	Play the treasure map game • Make a Solar System mobile • Play the time game • Make an old map
THE WORLD AROUND YOU	Family then and now
THE WORLD AROUND YOU	Think like a scientist

SCIENCE 4

Learning situation	Content
1 SPAIN'S POLITICAL ORGANISATION	Political map • State institutions • Diversity and living together • Spanish heritage
	Andalucía's institutions
2 POPULATION	The study of population • Population change • Spain's population • Population challenges
	Andalucía's population
3 THE ECONOMY AND THE USE OF RESOURCES	Economic activity • The production sectors • Money, spending and saving • Advertising and responsible consumption • Sustainable actions
	Andalucía's economy
STATIONS	Hands-on review of term content
THE WORLD AROUND YOU	Road safety
4 THE HUMAN BODY AND HEALTH	Body organisation and reproduction • Nutrition • Interaction and the senses • The nervous and locomotor systems • Emotional and social health
5 ECOSYSTEMS AND HUMAN BEINGS	Ecosystem functions • Ecosystem disturbances • Caring for ecosystems • Protecting biodiversity in Andalucía
6 FORCES AND MACHINES	Forces and their effects • Types of forces • Machines • Applications of machines • Discoveries and inventions
STATIONS	Hands-on review of term content
THE WORLD AROUND YOU	Life stages and body awareness
7 ENERGY AND SUSTAINABILITY	Energy and its forms • Energy transformation • Sources of energy • Energy saving and responsible consumption
8 PREHISTORY	The Palaeolithic Period • The Neolithic Period • The Metal Ages • Prehistoric art
	Prehistory in Andalucía
9 ANCIENT HISTORY	Writing and the beginning of history • The Roman Empire • Life in Rome • Hispania: the pre-Roman peoples • The Roman conquest of Hispania • Art and culture
	Ancient history in Andalucía
STATIONS	Hands-on review of term content
THE WORLD AROUND YOU	Think like a scientist
THE WORLD AROUND YOU	Think like a computer

SCIENCE 5

Learning situation	Content
1 SPAIN TODAY	How Spain is organised • Inequalities in Spain • Population diversity • Spain's heritage
	How Andalucía is organised
2 THE UNIVERSE AND EARTH	The Universe and the Solar System • Space observation and exploration • Earth's movements • Earth's spheres • Pollution and sustainable lifestyles
3 PHYSICAL GEOGRAPHY	The formation and shaping of relief • Representation of relief • Physical geography of Europe • Spain's relief • Spain's rivers
	Andalucía's relief and rivers
STATIONS	Play the autonomous community game • Make a mobile Solar System • Play the landform game • Make a heritage fan
THE WORLD AROUND YOU	Safety and first aid
4 CLIMATES AND LANDSCAPES	Climate dynamics • Earth's climates and landscapes • Spain's climates • Spain's landscapes • Human landscapes
5 HUMAN BEINGS IN THE BIOSPHERE	Living things • Classification of living things • Levels of organisation of the human body • Vital functions of human beings
6 MATTER	Matter and its properties • Density and buoyancy • Changes in states of matter • Classification of matter • Separating mixtures
STATIONS	Play the landform and climate game • Make a senses flipchart • Play the estimation game • Make a density jar
THE WORLD AROUND YOU	Computational thinking
7 ENERGY	Energy • Energy pollution • Climate change
8 THE MIDDLE AGES IN SPAIN	The Visigoths • Al-Ándalus • The Christian kingdoms • Life in the Middle Ages • Art and culture in the Middle Ages
9 THE MODERN AGE	The Catholic Monarchs • The Habsburg dynasty • A new dynasty: the Bourbons • Art in the Modern Age
STATIONS	Play climate change charades • Make a sustainable planet • Play Modern Age taboo • Make a horseshoe arch
THE WORLD AROUND YOU	Inspiring women
THE WORLD AROUND YOU	Think like a scientist

SCIENCE 6

Learning situation	Content
1 COUNTRIES AND POPULATION	The study of population • Population growth • Population distribution • The countries of Europe
2 THE ECONOMY	Economic activity • Economy and sustainability • Work and consumption • Inequalities
	Andalucía's economy
3 NUTRITION	Nutrition • The healthy plate • Digestion • Respiration • Circulation • Excretion • Health and nutrition
STATIONS	Hands-on review of term content
THE WORLD AROUND YOU	Computational thinking
4 INTERACTION	Interaction and the senses • The nervous system • The locomotor system • Health and interaction
5 REPRODUCTION	Reproduction and the reproductive systems • Fertilisation • Pregnancy and birth • Health of the reproductive systems
6 FORCES AND MACHINES	Forces and their effects • Machines and structures • Air transport • Land transport • Water transport
STATIONS	Hands-on review of term content
THE WORLD AROUND YOU	Emotions, relationships and sexual health
7 ELECTRICITY	Electrical energy • Sources, transformations and transmission • Electrical circuits and robots
8 THE BEGINNING OF THE CONTEMPORARY AGE	The Contemporary Age in Europe • Spain in the 19th century • Spain from 1898 to 1936 • Spain from 1936 to 1975 • Contemporary art
9 SPAIN'S RECENT HISTORY	The Democratic Transition • Decentralisation • Spain in the European Union • The population of Spain
	Andalucía's recent history
STATIONS	Hands-on review of term content
THE WORLD AROUND YOU	Rights and duties
THE WORLD AROUND YOU	Think like a scientist

MAKING WAVES

making waves
Arts & Crafts

NEW!

ANDALUCÍA

MAKING WAVES inspires students to explore, create and express themselves through art. With its clear, hands-on approach, it transforms every classroom into a space for imagination and discovery.

> Easy to teach and designed for all teachers — no art expertise required — it encourages every student to become a true artist.

COURSE **COMPONENTS**

- Student's Book
- Teacher's Book (Includes complete Learning situations)
- Flashcards (cycle 1)
- Online material that includes:
  - Audios
  - Videos
  - External resources
  - Virtual Art Gallery
  - Virtual PPT Presentations

*In cycle 1.

You'll love teaching with it!

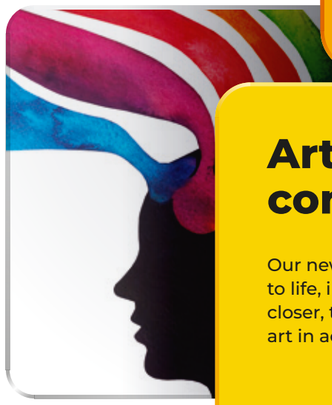

Born from a blank canvas

From concept to creation, every page, every image, and every activity is unique to this project. Entirely original. Entirely yours.

Made for you

You don't need to be an art expert. Everything is clearly explained, ready to use, allowing ideas to come to life effortlessly.

Art that comes alive

Our new videos bring artworks to life, inviting students to look closer, think deeper and feel the art in action.

Hands-on materials

Tear, fold, colour, create! Pages designed to be used directly in class, turning learning into play and imagination into art.

Student-centred

Each Learning situation turns students into creators of their own artistic experience.

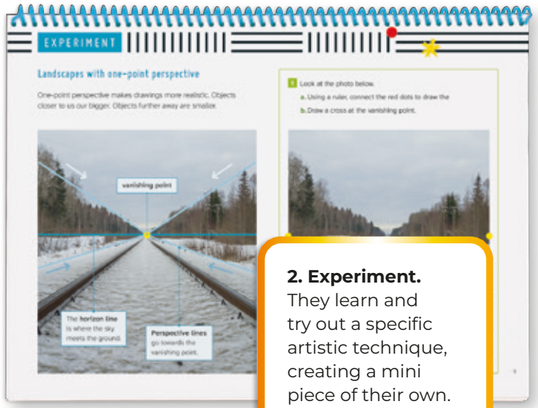

Phases of a Learning situation

See what's inside

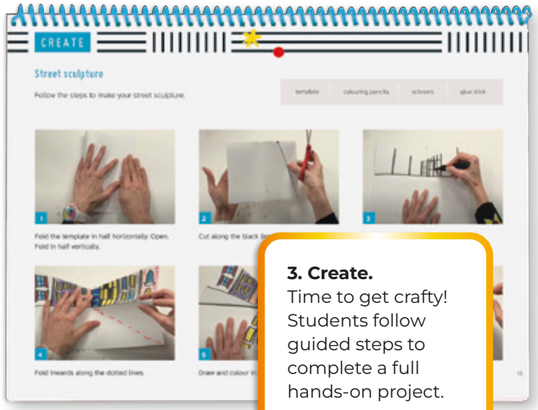

Each Learning situation follows a simple 3-step structure:

1. Observe.
Students look closely at a visual artwork, a landscape, a building... and reflect on it from their own perspective.

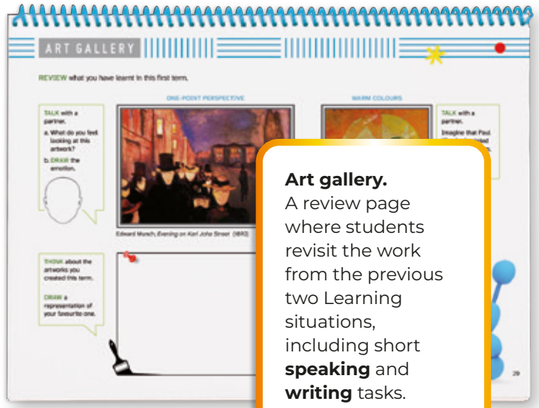

2. Experiment.
They learn and try out a specific artistic technique, creating a mini piece of their own.

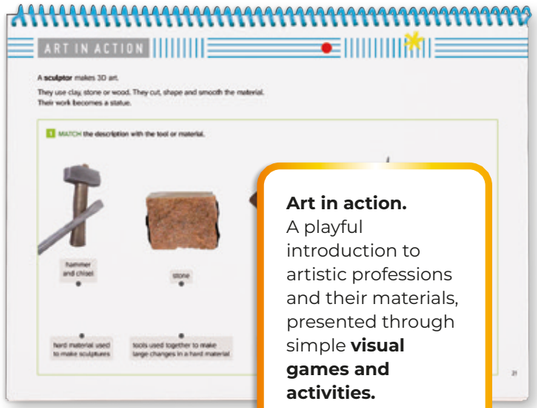

3. Create.
Time to get crafty! Students follow guided steps to complete a full hands-on project.

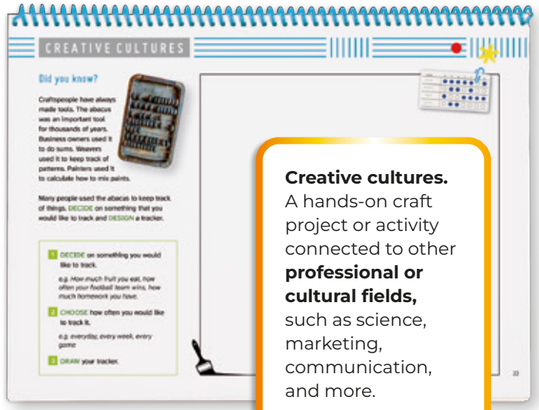

Content with consolidation activities

Art gallery.
A review page where students revisit the work from the previous two Learning situations, including short **speaking** and **writing** tasks.

Art in action.
A playful introduction to artistic professions and their materials, presented through simple **visual games and activities.**

Creative cultures.
A hands-on craft project or activity connected to other **professional or cultural fields,** such as science, marketing, communication, and more.

Art stations.
A section focused on seasonal crafts for Christmas, Easter and other celebrations. Students can work as groups or individually.

Table of contents

making waves

ARTS & CRAFTS 1

Learning situation	Content
1 ART IN THE MARKET	• Straight lines, curved lines and zigzag lines
2 TOYS EVERYWHERE!	• Simple forms • Patterns
3 AT THE PARK	• Primary and secondary colours
4 SPLISH, SPLASH, ART!	• Textures • Stamps
5 FROM MY WINDOW	• Composition • Simple animation
6 GROWING AND PAINTING	• The dot: the smallest visual element

ARTS & CRAFTS 2

Learning situation	Content
1 SHADOWS IN MY BEDROOM	• Light and shade
2 NATURAL TOUCH	• Natural materials in art • Textures
3 MIRROR ANIMALS	• Symmetry
4 CLASSROOM FIGURES	• Composition: using figures and backgrounds
5 FANTASY BUILDERS	• 3D construction
6 AT THE CINEMA	• Sound and colour in cinema

ARTS & CRAFTS 3

Learning situation	Content
1 INTO THE COUNTRY	• Straight and curved lines • Patterns
2 BY THE SEA	• Warm and cool colours
3 IN THE FOREST	• Geometric and organic forms
4 ON THE ROAD	• One-point perspective
5 AROUND THE WORLD	• Creating a portrait
6 INTO SPACE	• Composition • Symbols

ARTS & CRAFTS 4

Learning situation	Content
1 SCULPTURE LAB	• Using multimedia to create sculptures
2 SECRETS OF THE MUSEUM	• Symbolic objects
3 ZOO ADVENTURES	• Drawing proportions
4 DIRECTORS' CHOICE	• Storyboarding and animation
5 EXPLORING LIGHT AND SHADE	• Creating volume using light and shade
6 GEOMETRIC WORLDS	• Technical drawing using geometric forms and lines

ARTS & CRAFTS 5

Learning situation	Content
1 ART THROUGH TIME	• Art to understand the past and present • Visual environments
2 IN BLACK AND WHITE	• Asymmetrical and symmetrical patterns • Positive and negative space
3 THE POWER OF COLOUR	• Complementary and contrasting colours
4 MIX AND MAKE ART	• Multimedia artworks • Art and space
5 DRAWING STORIES	• Hatching and crosshatching
6 OUT OF FRAME	• Perspective • Optical illusions

ARTS & CRAFTS 6

Learning situation	Content
1 ACTION POSES	• Poses in motion
2 TINY MOVEMENTS	• Stop-motion animation
3 LAYERS OF A SCENE	• Composition of complex scenes
4 SAY CHEESE!	• Photography techniques
5 3D CREATIONS	• Sculpture
6 DRAW LIKE A PRO	• Advanced drawing techniques
